**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

This application is in condition for allowance except for the following formal matters:

### ***Drawings***

1. The sheets of drawings should be numbered in consecutive Arabic numerals, starting with 1. These numbers, if present, must be placed in the middle of the top of the sheet, but not in the margin. The numbers can be placed on the right-hand side if the drawing extends too close to the middle of the top edge of the usable surface. The drawing sheet numbering must be clear and larger than the numbers used as reference characters to avoid confusion. The number of each sheet should be shown by two Arabic numerals placed on either side of an oblique line, with the first being the sheet number and the second being the total number of sheets of drawings, with no other marking.

### ***Specification***

2. The disclosure is objected to because of the following informalities: Each sheet of the specification should be numbered in consecutive order, starting with 1. These numbers must be placed in the middle of the bottom of the sheet, but not in the margin. Appropriate correction is required.

### ***Claim Objections***

3. Claims 2-10 are objected to because of the following informalities:

Re claims 2-10: Insert a comma before the term "wherein" (see line 1 respectively).

Re claim 7: Insert -- the -- before "serial number" (see line 1).

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

4. Claims 1-10 are allowable over the prior art.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record, taken alone or in combination, fail to teach or fairly suggest, in conjunction with other limitations in the claims, a method of purchasing value units comprising a software program storing a received serial number in a first location of a memory of a first computer; transmitting a refill file from a second computer to a second location of the memory of the first computer; loading the refill file from the second location of the memory of the first computer into the software program; comparing a confirmation number of the refill file with the serial number; and if the confirmation number of the refill file matches the serial number, adding a quantity of value units purchased to a previous total of value units and permanently deleting the serial number from the first location of the memory of the first computer.

6. As allowable subject matter has been indicated, applicant's response must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 C.F.R. § 1.111(b) and section 707.079(a) of the M.P.E.P.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
